

# Hands-On Full Arch Course

## HERO DENTAL EDUCATION

### Course Content

Prior to the course, attendees will gain access to an online course portion where they will be able to view two days of recorded lecture with comprehensive didactic training and recorded surgery. The course covers treatment planning, surgery, conversion, prosthetics and complications management. We will discuss and practice both analog and digital surgical and prosthetic workflows. The in person component will include hands-on practice on models. Each course participant will have the opportunity to observe or perform a full arch surgery on a live patient and do a same day conversion, as well as assist other course attendees.

### Educational Objectives

- Learn the indications and treatment planning for full arch implants
- Learn predictable analog and digital workflows for surgery, conversion, restoration
- Perform freehand and guided surgery on double jaw models
- Perform full arch surgery on a live patient utilizing a stackable guide
- Understand how to recognize, avoid and rescue from complications
